

On behalf of our Partner, a Global Player of the Telecommunication Business, we are looking for an

INTERNATIONAL IMPLEMENTATION TEAM LEADER

Responsibilities:

- project management of global, cross-border B2B projects
- keep contact with operation, engineering and product development teams
- manage a team of 4 professionals by being part of a „virtual“ international department of about 20 professionals.

Requirements:

- profound knowledge of voice / data / IP infrastructure products
- proven professional experience: telecommunication provider (B2B) and / or Client
- strong project management skills and experience
- team leader ability across international teams (3-10 person)
- fluent English AND German
- willing to travel.

If you feel motivated to work in a fast growing and developing professional environment, send your application in Hungarian and German / English to izabella.reman@workshop-hr.com with the reference II_307 by 15th of June 2010.
